

We are an engineering company engaged in the development and production of specialized environmentally friendly refrigeration technology. The technology used and integrated by MIRAI INTEX with innovative solutions opens new horizons in the field of cooling at ultra-low temperatures, aiming to minimize the negative impact of human on the environment. We offer our employees a unique opportunity to be an active part of a growing company, the ability to gain unique experience in a very interesting and innovative field.

**For our growing manufacturing plant in Brno we are currently looking for talented and driven colleagues for following positions:**

## PRODUCT MANAGER

### JOB DESCRIPTION:

- Responsible for the development and implementation of the strategy for the promotion of our products in the market.
- Monitoring current trends and the competitive environment in the compressor market.
- Preparation and processing of operational documentation, including user manuals and technical manuals (User manual, data sheet).
- Organization of product trainings.

### REQUIREMENTS:

- High school or university degree in engineering.
- Detailed knowledge of compressor technologies.
- Ability to analyze market requirements and form proposals for product development.
- High level of communication skills, ability to interact effectively with both clients and internal team.
- English language at C1 level.
- A big advantage: experience in selling compressors for chillers and heat pumps with output from 50 kW to 200 kW.

### WHAT DO WE OFFER YOU:

- Interesting work in an international working environment in technologically unique field.
- Space to use your experience at top level with possibilities for self-realization.
- The ability to actively participate in the growth and development of the company.
- Team of pleasant and motivated young professionals.
- Very good financial evaluation.
- Flexible working hours from Monday to Friday.
- Coffee and drinks for free workplace.
